

MTH Multiple-use Temperature and Humidity data logger

The Plustrace-MTH data loggers are extremely engineered for cold chain monitoring, maximum reliability and easy handling.

Products can be programmed according to customer needs

- 1 ➤ Digital Sensor allows Precise Measurements.
- 2 ➤ Status indication via red/green LEDs.
- 3 ➤ Large LCD display.
- 4 ➤ Replaceable CR2450 Battery.
- 5 ➤ Auto Generated PDF&CSV Reports.
- 6 ➤ User Programmable.
- 7 ➤ GDP Compliant.

01
Push START/STOP button to start

02
Put the started logger MTH to anywhere of your shipment

03
Connect to PC USB port

04
Directly get the PDF & CSV report automatically

SPECIFICATION

Product Model	Plustrace-MTH
Type	Re Usable / Multiple Use
Measures	Temperature and Humidity
Temperature Range	-30°C to +70°C
Humidity Range	0% RH to 100% RH
Recording Interval	10 minutes/Customizable
Temperature Accuracy	±0.2°C (-20°C to +40°C), ±0.5°C (others)
Humidity Accuracy	±3% RH (typical)
Resolutions	0.1°C and 0.1% RH
Running Duration	110 Days (Standard) / Customizable
Storage Capacity	32.000 Values
Protection Class	IP65
Battery	3.0V lithium Battery/ Replaceable CR2450
Sensor	Internal digital Sensor
Report	PDF/CSV
Auto Generate Reports	Yes
LCD Display	Yes plus LED indication
Alarm / Limits	Customizable (Standard not set)
Digital Certificate of validation	Yes
Validation Certificate	Six points NIST Traceable validation
Certifications	EN12830,RoHS,CE,NIST
Unique Serial Number	Yes
Weight / Size	41g / 85mm x 45mm x 18mm (L x W x H)
